The image shows a PNETLab network topology and a virtual machine window. The topology on the left includes two Windows machines (Win-1 and Win-2) with IP addresses 10.0.0.10 and 10.0.0.20, connected to a central 'Net' block. On the right, there are three Linux machines (Linux-1, Linux-2, and DNS) with IP addresses 172.50.0.10, 172.50.0.20, and 200.12.66.10 respectively. The central window, titled 'OEMU (Win-2)', displays a web browser with the URL 'http://www.linuxserver.com/'. The browser shows a 'Hello World!' message and a file path '/home/ubuntu/'. The bottom of the screen features a Windows taskbar with various application icons and a Google Meet interface with a 'Stop sharing' button and a timer.
